*The South Bohemian Mother Association was founded in 1992 in České Budějovice (The Czech Republic) It is a non profit organisation whose mission is to protect nature and the countryside.*

*Its main task is to put an end to risk technologies, especially nuclear power plants. We support the enforcement of alternative methods of acquiring energy that are less of a burden on the environment and, above all, to limit the excessive consumption of energy by looking at ways of saving it.*
